Compliance First

Assess compliance in 1 hour or less with a comprehensive IT network analysis that covers **HIPAA, NIST 800, SOC 2,** and more.

COMPLIANCE IS A CONTINUOUS EFFORT

A point-in-time audit can only tell you whether the system that was in the scope of that audit was secure at that specific moment.

Rule #1: Utilize efficient cybersecurity and maintain compliance standards.

Staying compliant isn't just about following the rules. It's about adapting, changing, and adopting new practices.

Cyber Liability Insurance

> " But there is a catch when it comes to cyber liability policies. Much like auto and homeowner's insurance, the cyber liability policyholder must be able to prove that they have been in compliance with the IT security terms of the policy in order to receive payout on a claim."

Your **cyber liability insurance** is only as good as your compliance to contractual IT and data security requirements.

A THIRD-PARTY OR CONTRACTOR IS AT FAULT

COMPANIES FAILED TO DOCUMENT PREVENTATIVE MEASURES TAKEN

ACCIDENTAL ERRORS AND OMISSIONS

THESE MISTAKES CAN INVALIDATE YOUR LIABILITY INSURANCE CLAIMS

Though different insurance companies have a varying set of guidelines and clauses, these are some major reasons claims get rejected.

COMPANIES HAVE POOR BUSINESS PRACTICES IN PLACE

This includes the use of non-compliant technology solutions by the business.

COVERAGE DOESN'T EXTEND BEYOND THE MENTIONED TIMEFRAME

Cyber Liability Insurance is a great protective barrier to have, but we all know the tricks of the trade. Make sure you're meeting compliance regulations to fulfill your coverage and prevent denied claims.
