Does your company have a disaster recovery plan?

A disaster recovery plan, or business continuity plan, is a document that details the steps your business will take to recover from a catastrophic event. Once you make sure that all your employees are safe and sound after a disaster, implementing your disaster recovery plan should be your first order of business.

Providing secure cloud solutions that can increase your business productivity, flexibility, & profitability

In the simplest terms, cloud computing means storing (hosting) and accessing data and programs over the internet instead of your computer's hard drive. The cloud is just a metaphor for the internet. With cloud computing, users can access

How Cloud Computing Benefits Small Businesses!

MTC Donation

Data-Tech was honored to **donate more than \$8,000 to VIP client, MacDonald Training Center.** We have assisted the non-profit organization in meeting their HIPAA and Cyber Risk Security needs, as well as, providing staff and students with several data security solutions. It's a privilege working with such an amazing organization, who impacts the community daily.

CFO of the Year!

Our Controller, Sam Matin, was awarded CFO of the Year by Tampa Bay Business Journal! While attending the award ceremony, Sam had the wonderful pleasure of connecting with City of Tampa Mayor, Jane Castor, and the 15 other Tampa Bay area CFO honorees.
Congratulations Sam!

Bolts Nation

Data-Tech has been closely monitoring the Tampa Bay Lightning as they continue their journey to the Stanley Cup! We've been consistently hosting Lightning Days in honor of the Bolts and our

community. More to come!
Let's Go Bolts!

Kitten Rescue

Our great staff, once again, rescued another kitten outside of our office facility. Thank you, Vivek Mankar, for keeping an eye on technology and our surrounding furry friends. You make the world a better place!
Way to go, Vivek!
