Ransomware Prevention

Discover the reality of ransomware in 2022

The State of Ransomware 2022 Report

[Read the Report](#)

Tips:

- **Keep your computer updated**
- **Use an anti-virus scanner**
- **Use a firewall**
- **Don't click the links**
- **Backup your files**
- **Practice safe browsing habits**

58% of U.S. organizations were hit by ransomware in the last year...

U.S. organizations took on average one month to recover from the attack.

The average bill incurred to recover from a ransomware attack in 2021 was \$1.08 million.

It may not be news to you that ransomware is on the rise, but the numbers may leave you shocked. In 2020 alone, there were close to 300 million ransomware attacks worldwide. The cost of ransom payments demanded by hackers are also increasing in tandem with the increase in attacks.

What To Know If Your Business is Targeted With Ransomware
