SECURITY NEVER SLEEPS

Vulnerability Scanning

CYBERSECURITY THREATS ARE RISING

By 2025, cybercrime will cost the world \$10.5 trillion per year*

Ransomware and phishing will continue to be major threats in 2023

*Source: Cybersecurityventures, DarkReading, Verizon DBIR

IS YOUR BUSINESS AS SAFE AS YOU THINK?

Frequent vulnerability scanning is directly related to way faster remediation time

“New vulnerabilities are discovered every day, so even if no changes are deployed to your systems, they could become vulnerable overnight.”

The Hacker News

Enable 24/7 scanning to be on top of your IT security
